Crystal Bicones - 24 Light Amethyst bicones

### Tools

Mighty Crimping Pliers

Cutters

Bead Stoppers

### Instructions

**Step 1:** Cut 12" each of Purple Amethyst wire, Pink Tourmaline wire, and Spinel wire. Use all three wires to string 1 crimp tube and the ring half of the clasp. Pass all three wire ends back through the tube, and crimp using Might Crimping pliers.

**Step 2:** Use the Purple Amethyst wire to string 5 Purple Velvet crystal rounds and 1 Amethyst charm. String {6 Purple Velvet crystal rounds and 1 Amethyst charm} three times. String 1 Purple Velvet crystal round. Place a Bead Stopper on the wire; set aside.

**Step 3:** Use the Pink Tourmaline wire to string 1 Rose crystal round. String {1 Rose charm and 6 Rose crystal rounds} three times. String 5 Rose crystal rounds. Place a Bead Stopper on the wire; set aside.

**Step 4:** Use the Spinel wire to string 3 Light Amethyst crystal bicones. String {1 Siam Ruby charm and 6 Light Amethyst crystal bicones} three times. String 3 Light Amethyst crystal bicones. Place a Bead Stopper on the wire.

**Step 5:** Slowly and carefully braid the three wires together, pushing two crystal beads (or 1 crystal bead, 1 charm, and 1 crystal bead, depending on the order of the beads) up to the braid before crossing the next wire over. Due to the way the charms and crystal beads are strung, the charms should come together in groups of three, with the groups of charms alternating on different sides of the bracelet.

**Step 6:** Continue to braid until all the beads are incorporated into the bracelet. Use all three wire ends to string 1 crimp tube and the bar half of the clasp. Pass the wires back through the crimp tube, and crimp.
